

STUDENT HANDBOOK

—
RTO 41402

WELCOME

This information booklet is designed to provide you with information about the services provided by Southern Education and our approach to providing you a safe, fair and supported environment to participate in training and assessment.

This handbook does not provide you with specific information about a particular course offered by Southern Education. This information is contained in the Course Brochure which is supplied separately.

Southern Education is a Registered Training Organisation RTO No. 41402 providing high-quality training to learners in Australia with a direct focus on the leisure industry.

Southern Education has modern, up to date facilities, and boasts a team of qualified and dedicated trainers with over 30 years experience in the education and leisure sectors.

You can find out more about Southern Education at the following websites: <http://www.southerneducation.com.au>

PRE-ENROLMENT

Prior to applying to undertake a course, students are encouraged to think about their individual learning needs. Students should then consider all the information provided in this handbook and decide whether the course, training and assessment methods and support mechanisms are appropriate for addressing their individual learning needs. Learning needs can mean different things to different people. Some examples of individual learning needs may relate to/ be the result of:

- Intellectual, psychological, physical or medical conditions or have vision or hearing impairments.
- Family, work or personal commitments that impact study
- Why you want to undertake the intended course e.g. to access further study or employment opportunities
- The amount of time you have available to study per week or the duration of time you have to complete a course e.g. 1 year.
- Preferred learning styles. Some people learn best through reading, listening or watching, some through working independently as opposed to in groups with others. Some people learn best when completing practical activities and/ or learning on the job. Some people learn best when undertaking a variety of learning methods identified above.
- Existing knowledge, skills and experience relevant to their intended course of study

Prior to submitting an enrolment application all students should read this handbook in full. Particular attention should be paid to the sections that outline how Southern Education and the specific course in which you are interested could address your learning needs.

Course information pages provide details on e.g. course aims, course durations and course demands per week, types of learning and assessment methodologies, and further study and employment opportunities on successful course completion. Students should think about whether the course and support mechanisms address their learning needs.

Students should note that course delivery and assessment methodologies, duration and many other aspects of a course can be amended (where feasible) to address individual learning needs.

Students should consider whether the support mechanisms outlined in this handbook are appropriate for supporting their individual learning needs. e.g. Sometimes being provided access to modified training materials address specific needs or being provided extra time to complete a task allows students to appropriately address the assessment requirements.

During enrolment, students will be asked to identify any individual learning needs that require support during their course. It is recommended that students provide Southern Education full details that will enable us to identify whether we can appropriately address your individual needs and if so how this can be achieved.

Southern Education encourage students to contact them and discuss any specific learning needs they may have and if/ how these can be supported during their studies.

LANGUAGE LITERACY AND NUMERACY

To ensure that we at Southern are catering for individual learning needs all students will complete a Language, Literacy and Numeracy (LLN) skills assessment as part of the enrolment process in accordance with regulatory guidelines. This process is completed as part of the Pre-training review. The LLN assessment is included in the Pre-training review form/process.

PRE-TRAINING REVIEW

To ensure students are placed in a course with an appropriate delivery and assessment strategy we review their existing knowledge, skills, experience and qualifications relevant to the course for which they are applying. Students are required to complete the Pre-training review during the application process by providing details of their existing knowledge, skills and experience relevant to the course.

The results of the Pre-training review are used to determine if the student possesses the required LLN skills and knowledge, skills and experience to address course requirements and confirm whether the course is suitable for addressing their learning needs. The Pre-training review and Enrolment forms are used to collect the information that will be analysed to determine if the course is appropriate for addressing the students learning needs.
